

Corporate Profile

TMS Vision

"TO BE A LEADING GLOBAL DEVELOPER & INTEGRATOR OF ENTERPRISE KNOWLEDGE PORTAL TECHNOLOGIES & SOLUTIONS TO THE ENTERPRISE, GOVERNMENT, EDUCATION & COMMUNITY SECTORS."

The emergence of the Internet phenomenon and K-economy provided the impetus for three enterprising Malaysian graduates from the United States to come together to set up The Media Shoppe (TMS) in 1996.

TMS started out by developing web-based solutions for small and medium sized industries. Today, TMS has grown into one of Malaysia's leading companies in developing Internet-based applications and solutions, distributed through its global channel network in Australia, Brunei, Canada, Denmark, Greece, Hong Kong, Italy, Japan, Saudi Arabia, Singapore, South America, United Kingdom and United States of America.

In 1999, TMS was awarded the Multimedia Super Corridor (MSC) status by the government of Malaysia for its contribution to the development of flagship applications and support of Malaysia's K-economy initiatives.

TMS is funded by, among other organizations, Walden International Group of Venture Capital Funds, based in the Silicon Valley, United States of America, and PrimeAce Venture Limited, a subsidiary of Linear Corporation Berhad, listed on the Main Board of Malaysia's Stock Exchange.
